Speed up your efficiency, thanks to a smart partner.

Why Newtec Labelling?

We are small enough to really focus on **your specific needs**, but big enough to reach you in **every corner of the world** with a great service.

40 years of experience with trillions of perfectly applied labels, with rotary and linear systems.

Complete remote management

Integrated optical controls

No-stop system

High level multi-label machine, ready to work with all application technologies: **autoadhesive**, **hot melt**, **roll fed** and **wet glue**. Full control system for **quality check**, **defective product rejection** and **remote management**.

panther

A global company

Every Newtec installation in every part of the world is a concentrate of **high technology** and **craftsmanship**.

From Canada to New Zealand, from Korea to Chile, our service network is **always close to your needs**.

Each container, its label.

From cans of food to bottles of detergent, from the most expensive bottles of champagne to jars of sauce. **We have solved thousands of different needs.**

Total remote connectivity.

Our installations are "future ready", connected to grant **predictive maintenance**, **easy configuration** and an **efficient customer care**.

High skilled technical dept.

The heart of Newtec is the technical office, where a **team of senior engineers and designers** studies the specific needs of each customer in order to solve every critical point.

Less time. More work.

Our machines must continue to work: this is our first thought. Less time to change reels, less time to complete setup, less time for maintenance needs. **More work and more profit.**

O.E.E. 99%

Up to 60.000 bph

Up to 8.500 hrs/year

giotto

A latest generation **Roll Fed labeller**, compact and very easy to install, easy to use and maintain in perfect efficiency.

GIOTTO's **modular structure**, based on direct drive servomotors, is designed to help you drastically **reduce all management costs**.
